A blast from...

the future

25TH Trans Am

Standard equipment on every limited-production 25th Anniversary Trans Am includes:

- Driver and passenger airbags
- 4-wheel anti-lock disc brakes
- Air conditioning
- Power door locks
- Power windows and mirrors
- 6-speed manual
- Speed-rated high-performance Goodyear Eagle GSC tires
- Special lightweight 25th Anniversary 16" aluminum wheels
- Special 25th Anniversary interior with leather seating areas
- 25th Anniversary badging

Twenty-five years ago, Pontiac Firebird was firmly entrenched in the American automotive mind. The first generation Firebird culminated with the Trans Am's 1969 introduction and its limited-production run of 689 coupes and only eight convertibles. These vehicles defined performance and excitement for a generation of Americans and, today, the few remaining examples are coveted, valuable vehicles.

1969 Trans Am

Engine	Ram Air III 400 cid/6.6 liter V8
Fuel delivery	4-barrel carburator
Horsepower (S.A.E. net)	279 @ 5400 rpm
Torque (ft-lbs)	340 @ 3500 rpm
Transmission	3-speed manual
Brakes	Front disc/rear drum
Tires	F70/14 fiberglass belted
Wheels	14" x 7" steel
1/4 mile elapsed time/speed	14.6 seconds/99 mph*
Lateral acceleration	0.71 g left-hand/0.68 g right-hand*
Top speed	135 mph (estimated)*
Estimated fuel economy	11 mpg (estimated)*

A quarter century later, the 25th Anniversary Trans Am spiritually and mechanically embodies the original. Like every 1969 Trans Am, blue highlights a white exterior, and a powerful V8 resides under the hood. Street presence and performance are givens. Only a limited number of 25th Anniversary Trans Ams will be produced. Their future value is incalculable, as today they too define performance and excitement for a generation. This generation.

1994 Trans Am GT

Engine	Sequential fuel injected 350 cid/5.7 liter V8
Fuel delivery	Sequential-Port Fuel Injection
Horsepower (S.A.E. net)	275 @ 5000 rpm
Torque (ft-lbs)	325 @ 2400 rpm
Transmission	6-speed manual
Brakes	4-wheel disc with ABS
Tires	P245/50ZR16, Goodyear Eagle GSC speed-rated for above 150 mph
Wheels	16" x 8" aluminum
1/4 mile elapsed time/speed	14.2 seconds/99 mph**
Lateral acceleration	0.89 g**
Top speed	152 mph**
Estimated fuel economy	17 city/25 highway†

*Figures for RAIV-powered Trans Am Coupe with optional close-ratio 4-speed manual transmission published in July 1969 issue of *Road Test* magazine.
**Figures for 1993 Firebird Formula Coupe with 6-speed manual transmission published in February 1993 issue of *Car and Driver* magazine. †EPA estimated MPG.
Note: Due to the twenty-five-year span between the performance tests of these vehicles, their testing conditions are not exactly comparable. However, these tests do accurately reflect the relative performance of 1969 and 1994 Trans Ams with the specified equipment.

At 25, it's better than ever.

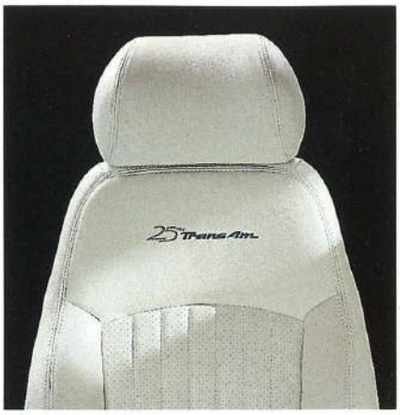

Anniversaries come and go, but for the celebration surrounding the 25 years of the legendary Trans Am, Pontiac unleashes something special.

This limited-production model brings forward all the excitement of the original 1969 Trans Am and combines it with the best technology developed over the past two and one-half decades.

*In 1969, computer engine management and microprocessor-controlled safety systems were the stuff of moon shots and fighter pilots. Today, these electronic systems mean 275 horsepower is available every time you turn the key, and a sophisticated four-wheel anti-lock disc brake system is there every time you hit the brakes. Backing these active performance systems is the peace of mind provided by driver and passenger airbags.**

With the 25th Anniversary Trans Am, it's clear that the good old days never ended–they just got better.

Above, the 25th Anniversary Trans Am features a special interior with supple white leather seating surfaces unique to this model.
Above right, special 25th Anniversary logos embroidered onto the leather seatbacks.
Lower right, the 25th Anniversary Trans Am blue-over-white paint scheme runs up and over the rear spoiler.
