

30th Anniversary Edition Firebird Trans Am

Soul. You might not even know why you like it, but you do. There's something about the way it feels. You sense its rhythm and power. The sound moves deep inside you. It seems to have a life of its own. **The muscle car lives.**

1969 Firebird® Trans Am

Light 'em up! The candles, that is...and better grab a big book of matches, because Trans Am celebrates its 30th in 1999. So, since this is a party, let's get to the presents. The 320-horsepower Ram Air-equipped package comes in two varieties, a full drop top or a coupe with T-Tops. Only 535 convertibles and 1,065 coupes are planned, each **individually numbered.** Both feature white wrapping with dual blue ribbons. Your biggest decision: the standard 4-speed automatic or the available 6-speed manual (a no-cost option).
